

CERT Training

Fall 2016

Community Emergency
Response Teams (CERT)

Program educates people about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, terrorism, and disaster medical operations.

Using the training learned in the classroom and during CERT exercises, members can assist their community or workplace following an emergency event when professional responders are not immediately available to help.

Pick-up / Drop Your Registration Form to RSVP

In person at HCPD, or by calling
