City Manager's Budget Message

To the Heber City Mayor, City Council, and Citizens:

Submitted herewith is the proposed budget for fiscal year 2016-17. The graphs and supporting schedules represent the plan to appropriate the financial resources of Heber City. The total comprehensive budget is \$18,551,712. The purpose of this message is to highlight major changes in revenues and expenditures for the 2016-17 budget year.

This budget reflects the desire of City leaders to continue addressing needs associated with a growing community and deteriorating infrastructure. As part of this commitment, the budget addresses the following significant needs:

- Planning and the commencement of construction of an expansion of the Public Works facilities.
- Replacement of the roof on the Social Hall and City Office Building
- An ongoing commitment to increase culinary water and sewer rates to try to narrow the gap between operating revenues and expenditures
- City wide project to address maintenance needs of all City streets with associated borrowing
- Commencement on the first phase of an Airport Master Plan Update
- Updates to the City Capital Facilities Master Plans

The current budget anticipates the following hiring or increased allocation of manpower resources:

Assistant City Manager (midyear)
Full-time Airport Manager
(2) Public Works Utility Maintenance Workers with a focus on Sewer and Technology
Building Maintenance Technician
Part-time Engineering Secretary
School Resource Officer
Part-time Police Secretary
Part-time Animal Shelter Technician

The remaining unappropriated surplus of \$1,516,272 represents approximately 12.33% of the General Fund Budget. Utah State Law requires that the budget surplus maintained by a municipality range from 5% - 25%.

THE BUDGET PROCESS

During the past four months, the budget document has been compiled from requests made by department heads which are compatible with the priorities identified by the governing body, staff, and the Capital Facilities Plan. Strategic planning sessions and budget workshops were also held with the Council and department heads to discuss and identify those items of priority. The budget is reflective of sustained growth the City has been experiencing.

A balanced budget has been prepared for the 2016-17 budget year. Although state and local economies have significantly improved, the City revenues have not sufficiently narrowed the gap caused by past inflationary impacts, pent up demands between ongoing operational expenses and

operating revenues and growth pressures. As a result, the City is still dependent on surplus funds to balance the budget. The City has completed the update of the Capital Facilities Plan, the 5-year Capital Improvement Plan, and rate analysis of the Water, Sewer and Utility funds which aid in the prioritization of future expenditures. The revised plans reflect current economic conditions and revised growth rates as we plan future improvements.

At the request of the City Council, an Airport Special Revenue Fund is being established to separate airport related revenues and expenses in the General Fund. To further consolidate airport operations, the Airport Hangar Enterprise Fund is being eliminated as there is no existing hangar inventory. The fixed assets of the Airport Hangar Fund will be transferred to the General Fixed Asset Account Group and the cash will be moved to the General Fund or the Capital Projects Fund and restricted for airport related purposes. This should make it easier for users of the financial statements to understand the financial status of airport related activities.

GENERAL FUND CHANGES IN REVENUE SOURCES

Significant changes in revenue for the General Fund relate to the following items:

- **Sales Tax:** Sales tax continues to be the largest source of revenue in the General Fund. It is budgeted that sales tax revenue will grow 7% during the coming year.
- **Building Permits:** Building permit revenues are projected to go down by approximately \$250,000. This is primarily because of the large number of permits that have been or will be issued in the 2015-16 fiscal year that cannot be relied upon in the 2016-17 fiscal year. Additionally, affordable single family lot inventory is shrinking and a moratorium on new subdivision applications while a form based code is considered for adoption may impact the availability of single family dwelling lots. This revenue is conservatively estimated because of the volatility of this revenue source.
- **Federal Grants:** The increase in Federal Grants is related to a grant the City received to help fund a School Resource Officer that will be hired in July 2017.
- **Contributions from General Fund Surplus:** The budget requires \$302,972 of surplus funds to balance the budget.

GENERAL FUND CHANGES IN EXPENDITURES

The current budget adds a new line item for “Internal Service Charge - Vehicles” in various departments to denote charges that will be made to General Fund departments to set aside monies to fund vehicle replacement.

LEGISLATIVE: A total of \$60,000 has been budgeted as discretionary funds for the Council to fund contributions that will be made to the Wasatch Area Economic Development Agency, State High School Rodeo Finals, Cowboy Poetry, Children’s Justice Center, Peoples Health Clinic and other miscellaneous contributions.

ADMINISTRATIVE: This budget includes \$25,000 in discretionary funds for the City Manager to address unanticipated unfunded needs during the budget year. The General Fund portion of the wages for the Assistant City Manager which is proposed to be hired in January 2017 will be funded out of this department.

ELECTIONS: The City has municipal elections every two years. No election is scheduled in this fiscal year.

GENERAL GOVERNMENT BUILDINGS: Funds have been allocated to hire a full-time employee to oversee the maintenance of City building facilities. With the addition of the Public Safety building, hiring of this position has become imperative. Also, the City has \$46,000 that has been budgeted to replace the City office building roof and a \$10,000 grant from the Utah State History Department (which requires an equal match from the City) to make improvements to the Social Hall.

PLANNING / INFORMATION TECHNOLOGY: Funds have been allocated to study the feasibility of a CDA or RDA in the historic downtown area and \$35,000 has been allocated to have outside consultants assist in the review of new development applications. With regard to Information Technology needs, the City will be changing email services and making other changes to enhance reliability and meet ongoing data storage needs.

POLICE: The budget includes funding for wages and equipment for one new full-time school resource officer and a part-time secretary. A \$10,000 budget is available to obtain artwork and additional furnishings for the new public safety building.

ANIMAL CONTROL: Funds have been allocated to make the following improvements to the Animal Control Shelter: Install tile in the front entry, paint the shelter interior and repair one of the electric gates. Additionally, a part-time Shelter Technician is being hired to replace manpower that has been historically provided by Paws for Life.

ROADS: Funds have been allocated to purchase equipment to begin lifting/leveling sidewalks to eliminate tripping hazards.

CLASS C ROADS & TRANSPORTATION TAX: Starting in the 2009-10 budget year, road monies that were restricted in use were segregated into separate funds. This allowed the City to more easily determine what funds were available for expenditure. Monies to pay the current installment on the 2011 Excise Tax Revenue Bond in the amount of \$292,064 and \$2,400,000 for citywide road maintenance that the City undertakes every 5 to 6 years will be appropriated from Class C Road funds. To fund the road maintenance project, it is anticipated that the City will borrow approximately \$1,500,000. The Transportation Tax fund includes \$1,600,000 to pay for citywide road improvements as well.

PARKS/CEMETERY: Funds have been allocated to put a concrete floor in the storage building at the Cemetery and install overhead doors. Additionally, a new mower and equipment to plow sidewalks and trails is being purchased as demands for these services increase.

TRANSFERS TO OTHER FUNDS: This budget reflects a \$280,000 transfer to the Debt Service Fund to make the debt service payment for the Public Safety building.

AIRPORT SPECIAL REVENUE FUND: Although a part of the General Fund, as noted above this fund was created to better isolate airport related revenues and expenses. This budget includes funding to convert the part-time Airport Manager to full-time to focus more attention on airport related needs.

PROPERTY TAX

At this time, I do not have any information from Wasatch County regarding a Certified Tax Rate for the 2016-2017 budget year. The budget reflects no property tax rate increase. The Certified Tax Rate for the 2015-16 budget year is .001410.

OTHER FUNDS

DEBT SERVICE: The amount of monies budgeted in this fund is to make the bond payment on the 2014 Sales Tax Revenue Bond for the Public Safety Building, and the final payment on the 2011 Sales Tax Revenue Bond for Road Improvements.

CAPITAL PROJECTS - AIRPORT: This budget includes \$75,000 to start the first phase of the Airport Master Plan update and \$40,000 to fence and make other improvements to property the City recently purchased on Heber Parkway to protect the Runway Protection Zone.

CAPITAL PROJECTS: This budget reflects the allocation of \$500,000 to replace the roof on the historic Social Hall that is owned by the City and up to \$500,000 to start the development of an additional building for the Public Works Department.

CAPITAL PROJECTS - STREETS: The budget allocates up to \$819,000 of Street Impact Fees to assist in the widening of several City streets and \$40,000 to update the Road Master Plan.

CAPITAL PROJECTS - PARKS: Funds have been set aside to help develop a trail/bike lane on 600 South from 1200 East to 600 West and to update the Park/Trails Master Plan.

ENTERPRISE FUND – WATER: In 2013, the City completed a rate study on culinary and secondary water. The study indicated that the City will need to increase rates by 7.5% - 8% per year for several years before the City will be able to cover all operating expenses. Since this time, the City has determined that the proposed increases are not adequate to address the demands of this service. As a result, the budget includes a 20% rate increase in culinary and pressurized irrigation rates that will go into effect in January 2017.

Water impact fees are proposed to participate/install the following culinary lines: Coyote Lane, Highway 40 to Valley Hills Boulevard (\$94,000), 100 South, 600 East to 820 East (\$33,000), 1600 East, Center Street to 800 North (\$312,000), 800 North – 1300 East to Mill Road (\$14,000), Valley Hills Drive PRV (\$112,000), 500 South, Main Street to 400 East (\$83,000) and 1200 East, 800 North to Valley Hills Tank (\$152,000). Culinary and Pressurized Irrigation impact fees will be also used to update their respective Master Plans.

Operating funds of \$429,000 is budgeted to replace failing water lines on Main Street from 400 South to 550 South and from 400 North to 350 North. Additionally, \$230,000 will be used to replace the 500 South water line from Main Street to 400 East. Also, the Water Fund is expected to initially contribute \$100,000 towards the expansion of the Public Works facility.

ENTERPRISE FUND - SEWER: A budgeted 20% rate increase that would go in to effect in July 2016 is included in the budget as an additional step to narrow the gap between operating revenues and expenses.

The City has budgeted \$248,000 of sewer impact fees to install a pipeline in North Highway 40 and to update the Sewer Master Plan. The budget also includes \$233,000 for annual replacement of problem areas within the system and initially \$500,000 for expansion of the Public Works facilities.

ENTERPRISE FUND – AIRPORT HANGAR SALES: It is proposed that the assets of this fund will be transferred to the General Fund or Capital Projects Fund and restricted for airport related purposes at the end of fiscal year 2015/16.

ENTERPRISE FUND – STORM DRAIN: Monies in this fund will be exhausted by the end of fiscal year 2015/16. No storm drain impact fees are being charged as this fund is no longer active.

INTERNAL SERVICE FUND: This budget reflects charges to be made to General Fund departments for utilization of vehicles and associated equipment. The budgeted charges proposed in this budget amount to \$244,100. This Fund is proposed to fund the following equipment purchases:

<u>Department</u>	<u>Vehicle Type</u>	<u>Approx. Cost</u>
Police	Patrol Cars w/equipment (5)	\$214,900
Roads	10 Wheel Dump Truck (1/2)	\$105,000
	Dispenser w/Brine Tank	\$ 25,000
Parks	Light Duty Truck (1/2)	\$ 15,000
Cemetery	Light Duty Truck (1/2)	\$ 15,000

PERPETUAL CARE: No purchases are budgeted in this fund. The fund does expect additional revenues from the increased price of cemetery lots.

OTHER MISCELLANEOUS ITEMS

SALARY INCREASES: The budget includes a 2 1/2% merit increase for employees that will be allocated by department heads in January, 2017. Additionally, the budget includes a 1% shift in the adopted pay scale to provide a Cost of Living Allowance (COLA) for employees that will go into effect in July, 2016. The City no longer has steps within the various pay grades which gives more flexibility to department heads as merit increases are allocated.

INSURANCE: The City received a 7% rate increase in health insurance premiums. The City and employees are jointly absorbing the increase in employee health insurance premiums. The City only offers a High Deductible Health Plan (HDHP) with a Health Savings Account (HSA). The City/Employee participation is approximately 87%/13%.

The budget also includes a 7% increase in dental insurance premiums. The premium will be shared on an 85%/15% basis between the City and the employees.

CHALLENGES FOR THE FUTURE

The City faces the following challenges that have not been fully addressed in this budget:

- Funding to further expand the pressurized irrigation system and development of a policy that dictates the conditions of use of the system in the expansion areas,

- Once the needed facilities for the Public Works building expansion are identified, the City will still need to determine how the facility will be fully funded,
- Addressing safety, financial and citizen sentiment issues associated with airport operations,
- A housing/wage strategy that will allow key employees the ability to live in close proximity to the City,
- Monies to properly maintain City infrastructure and facilities, and
- Fully funding operating expenses in the water and sewer enterprise funds

SUMMARY

Although improving economic conditions enhance the City's ability to fund ongoing operations, the City is still required to use \$302,972 of surplus funds to balance the General Fund budget. Looking to the future, with the pending adoption of form based code, the City is well positioned to support residential and commercial growth that will enhance the character of the City while contributing to the financial sustainability of the City. At this time, the City needs to put more emphasis on reliable revenue sources as a slowdown of sales tax and building activity could have an immediate significant impact on the City General Fund budget.

With regard to City infrastructure, the City has had to deal with several water and some sewer lines that have lived their useful lives which has placed a strain on reserves in these departments. The need to increase rates for these two enterprise funds will need to continue for the foreseeable future.

The City must now put more emphasis on developing budgeting policies that match one-time funding with one-time projects, scrutinize the hiring of positions to ensure that they can be funded with sustainable revenue sources, encourage economic development, look for efficiencies with the use of technology, properly address staffing needs as growth continues while continuing to evaluate the replacement of positions that become open and develop organizational goals for fund reserve policies.

The City should also continue to enhance and develop new tools to communicate information and receive feedback from the public. This will help align the services that are being provided with those that are demanded.

VISION, MISSION, VALUES STATEMENT

Our Vision

Our vision is to foster an environment
in which Heber City residents
can take advantage of
a vital, growing, and diversified community
that provides a high quality of life.

Our Mission

The mission of Heber City
is to maintain a safe, livable environment
by providing open government
with effective, efficient
and accountable service delivery.

Our Motto

Commitment to the Community:
People Serving People

VALUES STATEMENT

Heber City believes it takes the commitment of individuals, coupled with shared values, to realize its Vision, Mission, and Goals:

THE PEOPLE OF HEBER CITY. We value all Heber citizens and strive to be accessible, respectful and responsive to their needs. We are committed to providing services which are respected by all and reflective of our community's desires.

OPEN AND HONEST GOVERNMENT. As the unit of government closest to the people, we value honesty and maintain government with integrity through open communication and active participation with the public we serve.

QUALITY SERVICE-QUALITY LIFE. As keepers of the public trust, we value and remain committed to maintaining and enhancing Heber City's quality of life. This is achieved by the efficient and effective management of City resources and delivery of public services.

HEBER CITY EMPLOYEES. Recognizing that our City employees are our most important resource, we value and respect their contributions, sense of responsibility, and personal and professional excellence. Mutual cooperation and support among individuals and departments is promoted.

A LIVEABLE COMMUNITY. We value a community that addresses the social, economic and environmental needs of our residents. We value good planning and development that maintains and enhances livability now and for our children.
