USE THE UVU TRAILHEAD DURING CONSTRUCTION

The Coyote Trailhead and adjacent trails are closed during the realignment of Coyote Lane. Use the UVU Trailhead for trail access during construction. When reopened, there will be an improved trailhead, additional trails along the canals, and expanded backcountry trails.

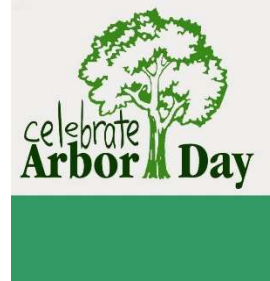

HEBER MARKET ON MAIN

Yes, we are having the Heber Market this summer. Every Thursday evening beginning on June 10th there will be lively entertainment, great food, and local shopping. Watch for our Adventure Fest kick off on June 10th!

CELEBRATE ARBOR DAY

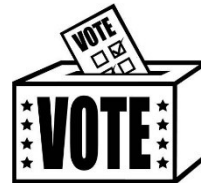

On Saturday May 8, 2021, from 11 am to Noon, Heber City will celebrate Arbor Day.

Mayor Potter will introduce the city's new Tree Advisory Board who will plant a tree adjacent to City Hall to commemorate Heber City's 5 years, as a Tree City USA.

All are invited to attend and enjoy refreshments provided by Heber Light and Power.

2021 BALLOT PROPOSITION

A referendum petition has been filed with the City to refer the decision to reject or approve Ordinance 2020-42 entitled "AN ORDINANCE ADOPTING A REVISED NORTH VILLAGE OVERLAY DISTRICT" to the Voters. Please visit <https://www.heberut.gov/> for additional information.

SENIOR HEALTH CHALLENGE

Challenge yourself or compete with others by logging your physical activity in the month of June.

This event is free to individuals age 50+ living in Summit, Utah & Wasatch counties. The participant with the most hours in each age bracket will win a Fitbit watch!

Learn more at: mountainland.org/health For questions, call Jimmy: 801-229-3821

YARD SALE SIGNS

Just a friendly reminder: Other Cities charge a fee to place yard sale signs around the city. We do not want to do this. We want to see you make money and others benefit from a deal. Please take your signs back down! This is considered littering.

HEBER VALLEY CORRIDOR ENVIRONMENTAL IMPACT STATEMENT

The Utah Department of Transportation's (UDOT) mission is to keep Utah moving while enhancing quality of life through transportation improvements in our state. UDOT is conducting an Environmental Impact Statement (EIS) to evaluate potential transportation solutions to improve mobility through the Heber Valley and the operation of U.S. 40.

UDOT has initiated the EIS scoping process, which guides the development of the EIS, and will soon release the Draft Purpose and Need and Alternative Screening Criteria. The purpose and need of a project defines a statement of goals and objectives that the study will address (purpose), and identifies the existing and future conditions that need to be changed (need). The purpose and need drives the environmental study process and lays a foundation for the types of alternatives developed. The screening criteria will be used to screen potential alternatives.

A public comment period will be open from April 30 to June 14, 2021 and comments may be submitted through the project website, email, voicemail or sending a letter. Comments sought by UDOT during the scoping comment period include specific comments to the proposed action and draft purpose and need of the project, appropriate information that could be pertinent to analysis of environmental effects, identification of significant issues, draft

screening criteria, and identification of potential alternatives.

For more information on the study and to view the *Draft Purpose and Need Technical Report* and draft screening criteria, please visit the project website: hebervalleyeis.udot.utah.gov. If you are aware of anyone without internet access, please have them notify the project team at 801-210-0498 for accommodations in viewing materials and providing comments. Hard copies of the project factsheets will be available at the Heber City and Wasatch County Administration buildings and the Wasatch County Public Library while supplies last.

PREPARING FOR PRESSURIZED IRRIGATION SEASON

Pressurized irrigation (PI) season is about to begin! We anticipate that pressurized irrigation water will be activated in early May. Please remember that in preparation for the water to be sent through the system, all residents/homeowner with access to PI water must turn off (or close) the valve & spigot inside the City's irrigation box in order to prevent flooding once PI water is released throughout the system. The City's PI boxes are generally located in or near the park strip or end of the driveway. Please feel free to contact Public Works if you have any questions. (435) 654-3275 Thank you for your cooperation in preparing for irrigation season!
